DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, 21-26, and 30-33 are drawn to methods for retrieving records from a plurality of database, classified in class 707, subclass 3.
 - II. Claims 8-20 and 27-29 are drawn to a system and medium for a user interface for database manipulation, classified in class 707, subclass 102.
2. The inventions are distinct each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions I has separate utility such as retrieving records. Invention II allows for the user interface that can be used in invention I. To examine the application with no restriction the examiner would have to do two separate searches, one search would include search terms for the retrieving records, and another search including search terms for a user interface for database manipulation. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 2161

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Applicant is advised that for this requirement to be completed, the reply to this requirement must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

6. In accordance with 35 U.S.C. 133, a shortened statutory period of one month (not less than 30 days) is hereby set forth to reply to this Office Action. See also MPEP § 710.02(b).

Art Unit: 2161
